# MULTIFUNCTIONAL SMART TERMINAL FOR ALL TYPES OF BUSINESS

The Smart One Smart Bank PRO mobile smart terminal is designed for use as a means of accepting payments in small and medium-sized businesses, as well as in any service sectors. The smart terminal has a compact size and fits comfortably in the hand, which contributes to its effective use in courier services and logistics companies. The smart terminal is equipped with all the necessary software for operation, and a full-fledged barcode scanner.
